

## VF300

### Product Description

VF300 is a new generation facial identification terminal, with Face, RFID and PIN Recognition mode. With latest facial algorithm ZK Face 7.0 and large capacity ZEM810 platform, it holds 200 face templates without dividing groups, and its verification time is less than 1 Second. All setting operations are easily done on 3.0 inches TFT touch screen. The elegant and small size design can fit with your slap-up office. Have ZK Face identification system, your life will become more secure and convenient.

#### Standard function

#### Optional function

## Features

- ✓ Elegant ergonomic design
- ✓ TCP/IP communication and USB Host.
- ✓ 3.0 inch TFT touch screen, T9 Input, 9 Digit User ID.
- ✓ Infra-red optical system enables user-identification in poorly lit environments.
- ✓ Optional Mifare card module
- ✓ Professional facial identification algorithm

## Specifications

### Capacity

Face Capacity	200(1:N)
ID card Capacity	10000

### Hardware

Platform	Platform: ZEM810
Sensor	Special Image Stereo Dual Sensor

### Display

LED Indicator	3 Inch Touch Screen
---------------	---------------------

### Environment

Oper. Temp	0°-45°C
Oper. Humidity	20%-80%

### Power

Power	12V, DC 1.5A
-------	--------------

### Communication

Comm. Port	TCP/IP, USB Host
------------	------------------

### Face Algorithm

Type	ZKFace7.0
Verification	< 1 second

### Dimensions

Dimensions	104.70×160.00×36.00 mm (L x W x D)
Weight	0.3kg

### Firmware

O.S	Linux
Applications	ZK Time
SDK	Standard SDK
